

## About Us

For more than 80 years, our story has been about a commitment to putting our customer's needs first, innovative thinking, and a passion for quality and performance. We offer an array of innovative services for the Cannabis cultivation industry ranging from scheduled preventive maintenance services to repairs & installation of new HVAC systems.

## Why Choose Us?

Our experienced professional service team is committed to helping you address all your cannabis refrigeration challenges, not only to provide immediate and superior repairs and services but to help you establish and maintain the absolute best in class efficient refrigeration system possible. FMG offers a full-service approach to address all your specific HVAC needs. We want to be your trusted partner for growing cannabis indoors commercially.
